

EONE

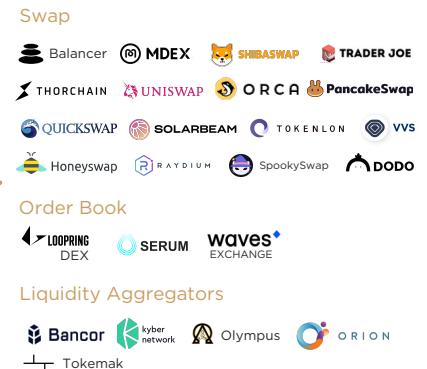

ERC20

TOKENIZED (WRAPPED) EPIC

WRAP

TRADE

UNWRAP

- Each EPIC coin can be split into 100 million sub-units (0.00000001)
- Fast, free* transactions
- Enables powerful new cross-chain possibilities for dApp developers – Solidity language

INFRASTRUCTURE

Oracles

Wallets

COMPARABLES:

WBTC

249k coins wrapped
\$14bn market cap

renBTC

40k coins wrapped
\$1bn market cap

\$7m daily volume
16 exchanges

WHY WRAP?

2 words – ‘More Utility’. Wrapped EPIC benefits by being able to use all the existing, unstoppable, fast and secure DEX infrastructure available today.

Centralized platforms are burdened with many compliance obligations due to regulatory requirements. As a result, their internal policies often prohibit confidential assets. (e.g. Coinbase, Crypto.com, Kraken UK) EONE solves this.
